Re: Weekly Update - Important Information

Dear parents/guardians,

Please see the [attached information](#) that provides an overview of the number of students, faculty, and staff that are currently in isolation or quarantine. It is important that you review the definitions for each data point so you have an accurate understanding of the environment at WCHS as it relates to COVID-19. A very common misconception is that anyone staying at home is ill or has tested positive. Our current numbers show that the majority of people staying home are healthy and are remaining in quarantine out of an abundance of caution.

We appreciate everything our students, parents, faculty, and staff are doing to keep the learning environment as safe as possible. We ask that you remain cautious with activities in your personal time that may lead to health issues for not only your immediate family, but also your school community. Please contact me if you have any questions about this information.

Sincerely,

Dr. Kyle W. Freeman

Superintendent of Schools
Washington CHSD #308
